What other people say and think of you is taken by you to heart. Thus, there are a certain number of things which cause you unhappiness which, after all, are not worth troubling about. Your manner is quiet, as a rule, and this quality gives you the appearance of being strong and determined in the eyes of your fellow-men and women. It enables you to get your own way when you want it. You do not say as much as you think and while you are thinking, you are reasoning. It follows that your judgement is worth having and people will flock to you for advice. You have several excellent qualities. You are highly sympathetic, which makes you a good friend. You are loyal and patriotic and are thus a first class citizen. You are, or would be a most lovable parent. You are, or would be, everything that your partner could desire. Clearly, the good qualities of yours far outweigh the others.

#### Happiness And Fulfillmen

You have the ability to truly enjoy yourself in the company of others. Quite cheerful and pleasant, you are not afraid to laugh and usually have an excellent sense of humor. Your mind is influenced strongly by beauty, and you may bring it prominently into your environment. Anyone who can bring beauty into his or her surroundings is more prone to happiness.

Your parents serve as a spiritual factor influencing you to accomplish certain objectives. Try to do what you want to do. Perform for yourself and not for them.

You should find jobs which involve you with groups of people and where there is no pressure to meet commitments and responsibilities on a commercial level. You would find success in a career which would help people, such as group leadership.

You are not fitted for any calling that is decidedly strenuous, nor do you care for too much responsibility. You do not mind work, in fact work agrees with you, but it must not involve a load of responsibility. While you are prepared to turn your hand to almost anything, it is very noticeable that you have a decided flair for all that is cultured and clean. In addition, you may have noticed that an occupation which brings you in contact with bright lights and a certain amount of gaiety suits you far better than one that relegates you to loneliness and quiet. As a matter of fact, your own quiet nature cannot tolerate quiet surroundings and it yearns for brightness and anything cheery.

You put a high price on your comforts. As an outcome of this trait, you are something of a gourmet and enjoy your food. In fact, you do not eat to live but, rather, live to eat. It is not surprising, then, to find that your digestive apparatus will be the portion of your body which will give you the most concern. Do not neglect such ailments as indigestion and, when they come, do not try to cure them by means of drugs. Take moderate exercise such as walking and mild physical jerks. Breathe plenty of fresh air, put yourself on a rational diet and eat fruit. However, if it prolongs you must visit a doctor. After fifty years of age, beware of inertia. You will be apt to give up this and that, and grow into an individual who loses his hold on life. Keep up your interest in things, develop your hobbies and remember that nobody can grow old if they mix with younger people than themselves.

Your leisure moments must be spent in a manner fitting to your temperament. Seeing that you value refinement and comforts, you do not care for rough or strenuous games. You like the company of others and you seek the bright-spots of life. Card-playing, probably, tempts you, but it has no attractions unless money stakes are involved. And, here, it may be well to warn you against gambling. If allowed, it might take a strong hold on you.

You are not a person who ought to go through life in single blessedness and, as a matter of fact, the older you grow, the more you will need a partner to listen to your joys and your sorrows. You set much score on a home of your own, and marriage brings this into being in a manner which you consider more perfect than any other. Your home will be your God. If you are a woman, you will say, when there will be your children because you were never so completely happy until they came. You will marry for love, naturally, but as the years roll on, you will think more and more of your partner, until a time will come when you cannot bear to be separated even for a day or two.

You will have many ups and downs in money matters, but chiefly owing to your own rashness and in attempting enterprises beyond your power of execution. You would make a successful company promoter, preacher, orator or organiser. You will always have the ability to make money but at the same time you are likely to make bitter enemies in the course of your business. You will be under good conditions for making money in business, industry or enterprise, and you will have many opportunities of amassing wealth if you keep control over your strong-willed disposition, which at times will be inclined to wreck your good fortune by causing expensive litigation and powerful enemies to rise in your path. So, you should try to develop tact in the handling of individuals and avoiding disputes.

You will be known for your exceptional speaking skills and your communication skills will help you shine amongst your peers for a long time. You will become smart and your memory will become sharp, due to which you will be able to remember anything easily for a long time. This special aspect of your personality will help you achieve success in your studies. You will also develop an interest in learning various things about religious scriptures. You will prove your excellence by spreading dominance over subjects like Mathematics, Statistics and Logic. You are gifted the virtue of analyzing things in a detailed manner which can very soon turn into a vice. # Kalsarp Dosh/ Yog - Kalsarp Remedies

## Kalsarp Yog is not present

As per the popular definition, when all planets are situated in between Rahu and Ketu in birth-chart or horoscope, the astrologers call it Kalsarp Dosh. In present days, discussions about this dosh are vogue among Jyotishi or Hindu Astrologers of India. Many of troubles in one's life are attributed to Kalsarp Dosh. Without analyzing other areas of astrology, most astrologers, in fact, accept Kalsarp dosh as main root of problems. But the reality is this that if all planets are well posited in horoscope, Kalsarp dosh will not be harmful, and can be supportive to beneficial results endowed by good positions of planets. Kalsarp dosh is inauspicious

only when positions of other planets are unfavorable in one's horoscope.

Therefore, it is not wise to fear hearing just about 'Kalsarp Dosh'. It is in fact always better to reach on remedies only after consulting jyotishi for deep analysis on negative influences of Kalsarp dosh. Interestingly, influence of kalsarp dosh is different in different people. Because influence of kalsarp dosh is based on points-which sign is posited in which house, and what other planets occupied that house, what are their influences and so on.

# Isht Devata

Worshiping your Ishta Deva leads to worldly success and liberation. As per your birth chart, your Ishta Deva: Lord Hanuman, Kartikeya / Murugan.

## Lord Hanuman, Kartikeya / Murugan

# Ishta Devata: Who and Why?

Moksha is a concept associated with the birth and rebirth cycle, and Vedic Astrology defines the attainment of moksha as the only purpose in life for every human being. Our Ishta Devata or chosen deity is the one whom we pray to, and who can guide us to our true purpose -salvation. Ishta Devata, literally translates to 'the favored deity' whom we worship, and is the higher power, whom we connect with spiritually. He/She guides us through life, helping us live a fulfilling and protected life, and then finally directing us into leaving the cycle of rebirth behind to experience of oneness with the One Supreme Self. Unlike our Kul Devata, the Ishta Devata is unique for every individual, and can be easily discovered through our birth chart. As per astrology, one should definitely worship their specific Ishta Devata. The rituals behind the veneration of your chosen deity are rather easy to follow and are mainly based on the chanting of mantras pertaining to them.

# How To Find Your Chosen Deity (Ishta Devata)

The knowledge about one's Ishta Devata can easily be discovered through the Atmakaraka in Navamsa in our birth charts. The Atmakaraka is the planet with the highest degree in our

kundli. The Navamsa, on the other hand, is the ninth division in our birth chart, that signifies Dharma and thereby is also known as the Dharma-amsa. The Atmakaraka in one's Navamsa is called the Karakamsa and the twelfth house or sign from it pertains to our Ishta Devata. The planets posited in this house determine our chosen deity, however, if this house is empty then the Lord of the house is taken as the significator. Every planet pertains to a certain deity who has to be worshipped.

# Remedies

Remedies are like treatment of yourself to avoid malefic effects of planets and to improve good effect of positive planets according to your horoscope. If you are sick, you consult medical practitioner. What he does? He first checks your bodily symptoms and then ask for conducting some test to investigate root cause of problem. Thereafter, he prescribes you some medicines and also tells about some precautions. Similarly, an astrologer first sees your bodily symptoms, then he analyses your chart in depth and find out root cause of your sufferings and thereafter he suggests some remedies (as medicines) and also tells you about some do?s and don?ts (precautions). Therefore, remedial measures always help you overcoming most of your worries and issues pertaining to different walks of your life.

### Shad Bala & Bhav Bala Tables

Shadbala is a method in Vedic astrology that gives quick insight in the strength of planets and the houses. 'Shad' in Sanskrit means 'Six' and hence Shadbala consists of 6 different sources of strength. Shadbala calculation is a laborious process but thanks to computers one can get these strength calcualtions by just one mouse click. Shadbala method gives a value to each planet and each house. The more points a planet and a house gets in Shadbala the stronger it is.

## Western Aspects

#### What is an Aspect

Aspect is an angular distance measured in degree and minute of celestial longitude between two points in the zodiac. Unlike Vedic Astrology Aspects, Western Aspects are grouped into good and evil. Results of good aspects are good, as these aspects symbolize progress and harmony. If two celestial bodies form good aspects, these bodies collaborate and produce positive results, as per Western Astrology. If the difference of the longitudes is exact, the aspect is considered strong or having more weightage. Though in real world we rarely see the exact aspects and an Orb is used to calculate till what difference the aspect will still apply. Orb is an allowance of so many degrees on either side of an exact aspect.

Here are the aspects, their weightage and orb that we have calculated -

Abbr-Aspect	Degree	Orb	Weight	Abbr-Aspect	Degree	Orb	Weight
CONJ-CONJUNCTION	0	15	10	OPPN-OPPOSITION	180	15	10
TRIN-TRINE	120	6	3	SQUR-SQUARE	90	6	3
SEXT-SEXTILE	60	6	3	SSQU-SEMI SQUARE	45	1	1
NONL-NONILE	40	1	1	QUIN-QUINLILE	72	1	1
SQQD-SESQUIQUADRATE	135	1	1	QUIN-QUINCUNC	150	1	1

#### Note

The table specifies the aspect if it exists and the weight. Weight of the aspect denotes strength of the aspect.

# Yogini Dasha Predictions

In the field of Vedic Astrology, where Vimshottari Dasha is considered to be most significant, there Yogini Dasha also has its particular relevance. Many learned astrologers make use of Yogini Dasha in addition to Vimshottari Dasha because doing so brings forward better results and it helps in predictions as well. The Vimshottari Dashas are of the nine planets (navagraha), and their duration is of 120 years. On the other hand, there are a total of eight Yogini Dashas, and they span a length of 36 years, after which they restart. Each Yogini Dasha has a lord planet, namely:

# Mangala (Moon) Total duration of 1 year Bhramari (Mars) Total duration of 4 years Biddha (Venus) Total duration of 7 years Pingala (Sun) Total duration of 2 years Dhanya (Jupiter) Total duration of 3 years Ulka (Saturn) Total duration of 6 years Sankata (Rahu) Total duration of 7 years Total duration of 8 years

Thus, beginning with the birth of a native, each of these 8 Yogini Dashas influences the person for a total of 36 years. Once this duration is complete, the Yogini Dasha from their birth emerges again, and once more, this process is repeated.

As each of these Dashas and their duration differs, thus, their results vary too. Let us discover the effects of a Yogini Dasha on you:

During this Dasha, you will have the privilege of participating in many religious programs and your mind will move towards purity. You will attain prosperity and affluence will become an integral part of your life. Various yogas indicating attainment of clothes, jewellery, comforts, facilities, fame, and honour will be formed.

Moreover, you can also organise an auspicious function at home in this duration. Auspiciousness will become a part of you in this Dasha, and all your problems will be resolved. Not only will your health improve, but there will also be an increase in your name and fame. You can also find a loyal and courteous life partner or become a parent to obedient and fortunate children.
